11/29/72 Howard, this is in case you hear from Jerry, who seems to be asking for personal trouble with Metromedia still by abusive misuse of their WATS line. He called Lesar Monday for no reason at all, just to gab, via their Washington tie-line. I was at Lesar's when he did. He must have me on the mind, for at the outset he musthave asked Jim when he'd last spoken to me. Jim said "about a second ago", so that made clear enough sense. From Jim's end the conversation was like that of a couple of old biddies at their clothes lines. I asked Jim what he'd said afterward. Jim said that is I send him another letter he'll return it unopened. You know the content of the last and that I respond to his only and only some of them. Jim returned to me what he'd gotten from Jerry of my pix. They are not complete. All my "tramp" pic are gone. Jerry returned but two. I can't imagine anyone except him having them, since you don't, nor can I imagine anyone taking only two of the set. The real question is what the hell else of mine does he have? Aside from right and wrong, honesty and theft, all elgitimate onterests are served by the prompt return of everything of mine he has, a delicate mission I impose upon you if you will accept it, not as an initiative but as a response when he is in contact. I'll be sending you a 3class envelope soon. Best ,
